Transhumanism (abbreviated as H+ or h+) is an international philosophical movement that advocates for the transformation of the human condition by developing and making widely available sophisticated technologies to greatly enhance human intellect and physiology.. Transhumanist thinkers study the potential benefits and dangers of emerging technologies that could overcome fundamental human ...

Transhumanism - Wikipedia

Transhumanism is a philosophical movement that advocates for the transformation of the human condition by developing and making widely available sophisticated technologies to greatly enhance human intellect and physiology. Transhumanist thinkers study the potential benefits and dangers of emerging technologies that could overcome fundamental human limitations, and thus promote the development of intelligent beings that are superior to those of the current human condition. The movement was first named by the science fiction writer and philosopher, ...

This paper provides quantitative data that, in many cases, open source software / free software is equal to or superior to their proprietary competition. The paper examines market share, reliability, performance,

scalability, scaleability, security, and total cost of ownership; it also comments on non-quantitative issues and unnecessary fears.
