The Dual Use Dilemma in Biological Research. The SERCEB Policy, Ethics and Law Core has developed an online module to assist those involved with the biological sciences in better understanding the dual use dilemma inherent in such research. This module is intended for graduate and post-doctoral students, faculty members, biosafety professionals, policy makers, and laboratory technicians ...

There is a large variety of systems and types of states for which DOS calculations can be done. Some condensed matter systems possess a symmetry of its structure on its microscopic scale which simplifies calculations of its density of states. In spherically symmetric systems, the integrals of function are one-dimensional because all variables in the calculation depend only on the radial ...

Rhenium is a chemical element with symbol Re and atomic number 75. It is a silvery-gray, heavy, third-row transition metal in group 7 of the periodic table. With an estimated average concentration of 1 part per billion (ppb), rhenium is one of the rarest elements in the Earth's crust. Rhenium has the third-highest melting point and second-highest boiling point of any element at 5903 K. Rhenium ...
