The ability of the Treasury yield curve to predict future recessions has recently received a great deal of public attention. An inversion of the yield curve—when short-term interest rates are higher than long-term rates—has been a reliable predictor of recessions.

## **Economic Research - Federal Reserve Bank of San Francisco**

In its 2014 decision of *Brinker v. Superior Court*, the California Supreme Court explained that employees must be "relieved of all duties" during their statutorily required 30-minute meal periods. Since that time, however, courts have struggled to define the exact status that employees are entitled to enjoy during the shorter 10-minute rest breaks which are also required by statute.

Efficient vertical mobility is a critical component of tall building development and construction. This paper investigates recent advances in elevator technology and examines their impact on tall building development. It maps out, organizes, and collates complex and scattered information on multiple aspects of elevator design, and presents them in an accessible and non-technical discourse.
