

scientific communication across the pdf

This monograph provides a concise introduction to the tangled issues of communication between Russian and Western scientists during the Cold War. It details the extent to which mid-twentieth-century researchers and practitioners were able to communicate with their counterparts on the opposite side of the Iron Curtain.

Scientific Communication Across The Iron Curtain PDF

What is Science? Science is the systematic enterprise of gathering knowledge about the world and organizing and condensing knowledge into testable laws and theories. The objective of scientific communication is to accurately and clearly communicate (new) scientific knowledge, hence it is

straightforward, but good communication of technical information remains both an art and a science. In order to open a dialog with an audience, we need to address the concept of perception.

Outreach and Scientific Communication Strategies

Keywords Scientii-c communication A-Cold War science A-Academic exchange In order to set this study in motion, I i-rst pick up on the comments made in the Preface concerning previous studies of Cold War (scientii-c) communication.

Christopher D. Hollings Scientific Communication Across

the 21st century needed to learn new communication skills to be successful and communicate science effectively to non-specialists. I began exploring video as a communication tool to show my scientific methods and to share my research findings with others in a more accessible and understandable medium.
