Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.

Concentrations within the Anthropology Major. Anthropology majors may choose to concentrate in cultural or archaeological anthropology. These optional concentrations in one or the other subfield entail additional constraints on course selection within the major electives category, as described below.

The curriculum in landscape architecture leads to a professional degree of bachelor of landscape architecture (BLA). The five-year program, accredited by the Landscape Architecture Accreditation Board, combines general preparation in the arts and sciences with a focus on environmental-design studies.

Landscape Architecture < University of Oregon

The Department of Architecture offers the Bachelor of Science degree in Architecture and the Bachelor of Science degree in Interior Design. Both degree programs include a common Foundation Year of studies and students remain as pre-majors until the completion of the Foundation Year required coursework and successful passage through the Foundation Year Gateway.

Department of Architecture < The University of Texas at

Perhaps, in the end, facts will prevail over feelings, due process will be honored and the principle that one is innocent until proven guilty will stand.

6 The Experience of Imprisonment. This chapter summarizes what is known about the nature of prison life and its consequences for prisoners. The dramatic rise in incarceration rates in the United States beginning in the mid-1970s has meant that many more people have been sent to prison and, on average, have remained there for longer periods of time.

6 The Experience of Imprisonment | The Growth of

It is amazing to learn how a group of committed people had so much influence in the development of Chicago in the early 20th Century, The work was ahead of its time and surprisingly much of what was designed came to life and inspired city planning work around the world.

Plan of Chicago: Daniel Hudson Burnham: 9781290033220

A social network is a social structure made up of a set of social actors (such as individuals or organizations), sets of dyadic ties, and other social interactions between actors. The social network perspective provides a set of methods for analyzing the structure of whole social entities as well as a variety of theories explaining the patterns observed in these structures.

This guide stresses the systematic causal analysis of gender inequality. The analytical questions raised and the readings listed consider why and how gender inequality arises, varies across and within societies, persists over generations, produces conformity by individuals and institutions, resists change, and sometimes changes dramatically.
